Job Application for ...

Hi, team,

About Me

I'm writing to apply for the [Position] position at [Company Name]. As a developer with a strong foundation in React, TypeScript, Node.js and accessible UI design, I'm confident in my ability to contribute to building intuitive, high-performance interfaces. I'm also deeply interested in blockchain technology and have a solid understanding of Web3 principles, which I believe aligns well with [Company Name] mission.

Why [Company Name]?

...

Why Me?

...

Sincerely,

Yuriy Korotovskikh
